

MAKE A TREASURE MAP

How to make a treasure map.

- Take a piece of paper and rip off pieces all around the edges (this makes it look old and worn).
- Dip your paper in a bowl of cold tea to stain it (makes it look like very old paper). When it has turned brown take it out.
- Leave your paper to dry overnight in a warm place.
- Design your treasure map. Will it be a map of your house or garden where you bury your treasure?
