

Make your own Pictish Brooch

Here's one we made earlier!

- ② Using your template, cut the brooch shape out of cardboard
- ③ Glue tinfoil on the top of your cardboard brooch
- ④ Using a pencil, carefully make your designs on the tinfoil. Make sure you don't break through the foil
- ⑤ Paint a thin layer of black paint over the top of the tinfoil. Using a cloth, wipe most of it off. This will give it an aged look. Decorate with any shiny paper.
